celebrating 40 years

Discovery Toys
est. 1978

teach. play. inspire.
We would like to thank our loyal customers, some of whom grew up with Discovery Toys products a generation ago, and welcome those who are encountering our award-winning collection for the first time. The company, over its 40 year history, has never wavered in its mission of making a difference in the lives of children.

Early childhood educator Lane Nemeth founded Discovery Toys in 1978 and believed from the get-go that a direct sales force offers the best consumer experience for reviewing top quality learning-through-play products. A DT Toy Event offers a customer experience that exceeds the one found in traditional retail as you can actually touch and play with the toys and learn about the rich benefits of our time tested treasures. Discussing a child's specific needs and interests with a DT Educational Consultant will generate suggestions for the most appropriate products.

The company’s focus on kinesthetic, multi-sensory, child-directed toys and games is more important than ever in today’s world. Excessive electronic media, early performance pressures, and reductions in play time have produced a generation who struggle to think for themselves, to communicate with others, and to solve complex problems. Our fun developmental products offer a valuable alternative for building young minds.

Just ask your local Educational Consultant to help unlock the riches of 1) the products in this catalogue and 2) your own home-based Discovery Toys business.

Thanks for supporting our 40th Anniversary! Every child is a reason to celebrate!

Jerry R. Salerno          James D. Myers
CEO Discovery Toys       CFO Discovery Toys
As Discovery Toys products are designed to grow with the child, the useful life of the toy spans well beyond the listed age range.
