ever stop playing
The page flips to our next chapter... As we move beyond the first 40 years at Discovery Toys, we reflect upon how much has changed in education, technology, and commerce and stand prepared for the accelerating pace of change in the years ahead. One thing that has not changed is our steadfast commitment to making a positive difference in the lives of children as well as in the lives of our team members we now call Play Advisors. The foundation for future learning success is best built through hands-on, kid-powered play, and we have heard countless success stories about “DT kids” raised with DT products.

Current technology and social media provide the ability to reach greater and greater numbers of people, yet it is still the personal conversations that are the most effective when introducing and sharing all things Discovery Toys. Our team members, true influencers and difference makers, are engaged in SHARING at all levels...sharing the DT mission, the DT learning through play products, and the DT opportunity. When a conversation results in another child receiving a DT product, then another mind can be ignited.

Explore our 2019-2020 catalogue. You’ll find exciting new products joining our award-winning best sellers, with something for children (and some adults) at all stages of their learning/development journey.

Every child is a reason to celebrate!

Healthy development in the first three years of a child’s life provides the foundation for educational achievement, lifelong health and productivity. In fact, 85% of brain growth occurs in the First 3 Years of Life. Brain development is shaped by environmental experiences, and studies show that children who grow up in more stimulating environments do better than those who have fewer opportunities to learn. Providing the right educational play at the right age will help fulfill your child’s potential.

To help parents provide the best learning environment for their child’s first three years, Discovery Toys has bundled together some of our top toys into age appropriate Play Packs.

Each Play Pack comes with toys perfect for a stage of development and comes with an informative card that shows when and how to introduce our toys. Each pack comes with suggested play ideas designed to stretch your child’s skills and maximize their potential.

JOIN OUR MISSION

“When I first saw Discovery Toys products, I knew I wanted many of them for my five-month-old daughter, so getting started with DT to earn extra income made so much sense! When my son was born a few years later, he was also able to benefit from these outstanding products, and I could still earn income while raising two young children.

I never dreamed that over 25 years later I would still be in love with DT products, have earned many amazing incentive trips, and have made so many new friends.

I am looking forward to introducing Discovery Toys to the next generation of children, and showing moms how they can have it all with the flexibility of the Discovery Toys home based opportunity and make a real difference!”
