2021-2022 CATALOG

# WELCOME

Recent research on children's learning indicates that play is fundamentally important for learning 21st century skills, such as problem solving, collaboration, and creativity, which require the executive functioning skills that are critical for adult success. Learning thrives when children are given some agency to play a role in their own learning.

A trusted brand for over 40 years, **Discovery Toys** specializes in premium quality, kid-powered learning products for children ranging from newborns to school-aged children.

We also prioritize a play experience that provides children with the fundamental skills, curiosity, and passion that leads to learning success in their school years and beyond.

In this catalog we feature our **Discovery Toys** branded learning-through-play products across all ages. You can find many more toys, games, and books on your DT Play Advisor's website and online catalog supplement.

*"The toys and games from Discovery Toys are well suited to help children develop executive function skills, essential for achieving high-level performance in both the classroom and in the workplace."*
